Direction of Use

1. Take the clock out of the box and carefully remove the package cushioning.
2. Insert two C batteries into the battery compartment. Ensure that the positive and negative polarities match the illustrations inside the battery compartment.
3. Turn the Tuning Knob to set the time.
   Tip: As there is no time ring on the clock dial, you may calibrate the setting at the top of the next hour.
4. Hang vertically.
5. Please do not block the movement of the cogs.
6. When the clock starts losing time, please replace the battery. Batteries normally last at least 6 months but it varies between brands.
